### CHOOSE MAN TO FILL THE DUEL POSITION

**Geo. Dunnett Is Choice of Council for General Utilities Man Take Preliminary Steps to Enforce Educational Tax.**

The regular meeting of the town council was held in the council chamber last Monday evening. Acting Mayor Howard presided in the absence of Mayor Reid and the following members were present: Councillors Lydiatt, Owen and Lavelle.

Mr. Lydiatt visited the council and enquired what was being done regarding his insurance during the time he was out of town as a result of the injuries he received during a fire. It was explained by Mr. Howard that the town had assumed the responsibility for payment of Mr. Lydiatt's hospital and doctor's bill, and that they assumed to considerably more than the insurance money.

The question of combining the offices of police and fire was discussed and was postponed and the officers now filling these positions had been given one month's notice the question of making an appointment to fill the joint positions was brought up. It was moved by Councillor Lavelle, seconded by Councillor Lydiatt, that Geo. Dunnett be appointed to the post of police and post keeper and that the Board of Health be requested to appoint him as their executive officer. The motion carried unanimously.

A letter was read from John Kitchen, endorsing his resignation as town foreman. On motion of Councillors Owen and Lydiatt the resignation was filed and Deputy Mayor Howard was appointed to interview Mr. Kitchen and see if he would reconsider the matter.

A number of accounts as passed by the finance committee were ordered paid. Councillor Lavelle inquired if the town was not now preparing to collect educational tax of \$4.00 as provided by an act passed at the last session of the legislature. Town Solicitor Baird informed the council that the act provided for a tax of \$4.00 on all males over 21 years of age who have resided in town for one month or over and are not assessed on the assessment roll, for school purposes. This however, he explained, "is subject to the action of the minister of education. On motion of Councillors Lydiatt and Lavelle the secretary was instructed to write the minister of education for his sanction to collect such a tax.

The water committee reported that arrangements were in train to secure rights for the pump station. It was pointed out that the repairs in question would add materially to the efficiency of the station. The matter was left with Councillors Lydiatt and Lavelle to complete arrangements.

The number of tagless dogs in town was also brought up again and following from the feeling expressed there is a war in store for all tagless dogs and their owners. A list of tagless dog owners who have paid taxes to be posted up and if you own a dog and your name is not written there, well, then the fireworks start and jail.

As there was no further business council adjourned.

### Increased Rates

#### Are Now in Effect

New schedule of increased freight rates allowed by a recent order-in-council, went into effect last Tuesday and an approximate increase in rates for general merchandise sent to Port William allows a rate of \$1.15 per cent. To illustrate, the rate of \$1 was raised to \$1.15 March 15, and today raised to \$1.25. The increase of Port William is approximately 25 per cent over the 15 per cent rate of March 15.

Coal and grain rates of Port William are raised special amounts and the principle rates for grain from today on will be 21 cents per hundred from Alberta points to Port William, this being an increase of four cents per hundred.

### Local Band Extends Thanks to Helpers

The Redflick Citizens band desires to express its appreciation to the Trades & Labor Council for the loan of Grand Street forms, the management of Rolling Mills for use of plant and stands and Broadway Department Store for supplies. Also to Messrs. Maxwell and Kearney, builders, for their assistance in the erection of the grand stand. Seats in the grand stand are free to all.

Thanks to our merchants and those who are loyally contributing, the future looks considerably brighter for the band. A platform or stand for use by the band itself is the next necessity. Any person or firm who feels as inclined may contribute at any time to the band fund, as the collection box is before the public at the drug store of C. T. Hall.

Several new players will be added to the band for the next season. Parents who desire their children, over 14 years of age, to become musicians should see Director E. Wetton at once, and take advantage of beginners classes now forming.

The financial statement of the band is as follows:

On Oct. 1st, \$40.00  
Collection Aug. 31, 17.15  
Collection Aug. 10, 13.54

Disbursements:

Director's salary, July 25.00  
Paid Outside Mus., 30.00

Balance 36.31

Following program will be played Saturday, Aug. 17, at 8 p. m.:

Conductor, E. Wetton.

March, "Lieutenant Sanderson's March."

Popular Song, "In the Hills of Old Kentucky."

Selection, "The Evening Star."

Selection, "Somewhere in France."

Selection, "The Hunting Song."

"There's a Lens, Lens Trail."

March, "The Land of the Maple."

God Save the King.

### Red Cross Auxiliary Formed at Bowell

Concurrent with the meeting of the R. D. W. A. at Bowell last evening the ladies of the district also met at the home of Mr. Walter for the purpose of meeting a delegation of women from Redflick and discussing the advisability of forming a Red Cross Auxiliary. After outlining the aims and plan of organization the ladies present enthusiastically entered into the scheme and decided to organize. The following officers were then elected:

Chairman—Mrs. Haslam.

Sec. Treas.—Mrs. Geo. Lemon.

Supt. of Work—Mrs. Butler.

In the absence of the very elected chairman, Mrs. G. Lawson acted in that capacity for the balance of the meeting.

Since the work in hand were delayed and instructions given as to how the society requires these to be made up, a letter which a large box of unfilled articles was left with the superintendent and those present took on a liberal consent.

The resolution was not present at the meeting, yet who want to assist in this important work may secure bundles from Mrs. Butler at any time in Bowell.

The new organization starts out enthusiastically and promises to become one of the better auxiliaries of the district.

### C.P.R. Offers Cup For Best Wheat

The Department of Colonization and Development of the Canadian Pacific Railway announces that it will award a silver cup valued at five hundred dollars for the best bushel of hard spring wheat exhibited at the International Soil Products Exhibition at Kansas City, Mo., October 12-20, 1918. All farmers in western Canada who have good hard spring wheat for display are invited to enter for consideration and it is hoped that among them will be found the successful competitor.

### R.D.W.A. MET AT BOWELL LAST NIGHT

**Record Crowd in Attendance—Committees Doing Good Work—Stock Yard and Rural Mail Delivery to be Taken Up—Condemn Colonizing Foreigners.**

The Redflick and District Welfare Association accepted an invitation from the Bowell U. F. A. to meet there this month and the meeting took place last night in the Bowell school house. Prompt point of attendance this was one of the largest meetings yet held by this association and there were many evidences of a growing interest in this organization. During the evening eight new members joined, making a total membership of 50 in the neighborhood of 50.

Owing to the busy season in the country the meetings was a little late starting but no time was lost after the meeting was called to order by the president. In the absence of Secretary Harper, F. Baird was chosen as secretary for the meeting.

In opening the program, outlining the work done by the several committees appointed at the last meeting, in all cases most satisfactory progress was noted and the committees were highly complimented for their prompt and thorough action.

The committee appointed to look into the Southern Alberta Land Co. situation submitted a short report. Information already gained but as there is still much to be done in this connection the committee was retained and instructed to push their inquiry still further.

A letter was read from Hon. A. E. Smith in answer to a resolution passed at the last meeting of the association and forwarded to him, requesting that the government continue the grading of the Canadian branch of the C. N. R. This fall. The letter outlined what it was possible to grant the request as the government had not made provision for this expenditure in their estimates.

At the last meeting the different U. F. A. organizations concerned were requested to look into the matter of having a Farmers' Co-operative school erected at Redflick. As there was a meeting of a delegation of women from Redflick and discussing the advisability of forming a Red Cross Auxiliary, after outlining the aims and plan of organization the ladies present enthusiastically entered into the scheme and decided to organize. The following officers were then elected:

Chairman—Mrs. Haslam.  
Sec. Treas.—Mrs. Geo. Lemon.  
Supt. of Work—Mrs. Butler.

In the absence of the very elected chairman, Mrs. G. Lawson acted in that capacity for the balance of the meeting.

Since the work in hand were delayed and instructions given as to how the society requires these to be made up, a letter which a large box of unfilled articles was left with the superintendent and those present took on a liberal consent.

The resolution was not present at the meeting, yet who want to assist in this important work may secure bundles from Mrs. Butler at any time in Bowell.

The new organization starts out enthusiastically and promises to become one of the better auxiliaries of the district.

The Department of Colonization and Development of the Canadian Pacific Railway announces that it will award a silver cup valued at five hundred dollars for the best bushel of hard spring wheat exhibited at the International Soil Products Exhibition at Kansas City, Mo., October 12-20, 1918. All farmers in western Canada who have good hard spring wheat for display are invited to enter for consideration and it is hoped that among them will be found the successful competitor.

### Respected Citizen Passes Away Monday

After a lingering illness Mr. George Jeffrey, an old and respected resident of this town, passed away at his home on Sunday evening. Although he had been confined to his bed for the past few months there were times when he appeared to be much improved and hopes were entertained for his ultimate recovery. However, during the past week he gradually grew weaker and all hopes were abandoned.

Mr. Jeffrey was born in Victoria, Canada, 75 years ago. He served in the army during the early days of the war and was one of the first to leave Canada to that part of the world, he having come there in the early part of the last century. From Ontario he moved to Saskatchewan where he farmed successfully for five years. Failing strength compelled him to give up farming and he moved to Redflick six years ago. Since then he has lived a retired life here.

Besides an aged widow who has been his devoted partner through life, he left behind a family of three grown up sons and one daughter. The sons are, A. G. McKay of this town, Frank, of Chinook, Alta., Charles, of Wadena, Sask.; and John, of Detroit, Mich. His son Frank was born in Redflick and left for home just a few hours before his father passed away.

The funeral takes place this afternoon from his late residence to the Baptist church where service will be conducted by the Rev. G. Lawson. Burial will then take place and the remains will be taken to Hillsdale cemetery, Medicine Hat, for interment.

### Broncho Snare

#### Man With Her Tail

While trying to separate some horses in a barn in his corral one of this week Adam Dubeau met with a new experience in broncho-busting which he never dreamed of. One of the horses which he wanted to keep in was bent on getting away from him, passing him he made a kick at it. Just here is where the trouble started for Adam. His foot went through the matted hair of the horse's tail and became fast.

With a jump and a snort the horse started off around the corral with Mr. Dubeau dragging behind still held fast in the chestnut locks of the ungrained champion. In the few minutes that followed, the things which he had to do to have done things which he had left undone flashed through Adam's mind, but just as the inquest and the long procession of the man in vision there was a slackening of the cords which held him closer than a brother. The same slackening of the cords passed just as Mr. Dubeau was being dragged dangerously near the rear of the horse and he was released from his dangerous position. It was a narrow escape indeed.

Adam says he is very glad the style in gents clothing has changed since his old-fashioned trousers. The entire line is believed would then go down.

### Presbyterian Sabbath School Picnic

The Presbyterian Sabbath school held its annual summer picnic on Sunday last week and it was voted by all present the best yet. Drays and autos carried a joyful throng to the church to the lake by the river side. After all had been beautifully served with ice cream, a picnic of treats was held and prizes distributed. Thereafter a sumptuous supper was served. When even was come a tired yet jolly crowd returned to town, well pleased with the day's success. The thanks of the school was voted to those who gave time and labor for this purpose, especially to Messrs. Hulse, Fielding, Smith, Wright, Gray, and Messrs. Donald Storer and Frank Blair for autos, and Mr. Dunnett for creating the picnic spirit. The ladies served the ice cream and supper were delighted to see their labors so highly appreciated.

Railways are grudging to Winnipeg weekly 4,000 tons of western domestic coal and 3,000 tons of steam coal at an average of 5,000 tons a day.

### Will Secure Seed For 1919 Crop

In view of the possibility of a shortage of seed grain next spring, Secretary H. Higginbottom, of the U. F. A., has been in correspondence with the board of grain commissioners of Canada and also the board of grain surplus. Replies have been received from the secretaries of both boards in which the promise to take the matter up with the Dominion government. The many farmers who are becoming anxious about the seed problem will be pleased to learn that the boards are dealing with the matter and promise to provide all the seed necessary for the 1919 crop.

### RED CROSS SENDS \$500. TO HEADQUARTERS

**Additional Committees Added To Local Branch to Keep Up With Work—Present Standing Is Most Satisfactory.**

There was very little business of importance to come before the Red Cross executive at its regular meeting last Tuesday afternoon.

Mrs. Harber, who is organizer for this district, reported that she had been successful in organizing an auxiliary at Harvest Vale. The organization meeting was most enthusiastic and already this auxiliary is doing good work. Mrs. Harber also reported that she was holding a meeting at Bowell on Wednesday evening to organize an auxiliary in that district, and a similar meeting would be held at Oak Springs and Breckinshaw as soon as arrangements could be made.

Owing to the increasing work at the Red Cross rooms it was found necessary to appoint additional assistants. As a result Mrs. Gregory was appointed to keep a record of the work taken out and returned. A committee consisting of Mrs. Fountain, Mrs. Smith, Mrs. Wadsworth, Mrs. J. C. Wray, Mrs. Patterson, Mrs. Howdell, Mrs. Harber and Mrs. Lydiatt was appointed to assist in cutting at the rooms.

It was also agreed that the different auxiliaries should get their work at the rooms on Tuesdays and Saturdays of each week. If possible, as a source of convenience for those who could not get to town on these days Miss Reid was appointed to attend to this work.

The honorary treasurer submitted the following financial statement for the month:

### RECEIPTS

Balance—July 8th	\$8.41
Gifts—July 8th	58.00
Rebels—July 8th	5.00
Quarry Lodge, A. F. & A. M.	25.00
Box Springs—July 8th	32.00
Collection	605.00
General	4.00
Prisoners	9.25
Rolling Mills Employees	50.10
Sale of Needles	1.50
Material	605.00

### PAYMENTS

Cleaning, printing, etc.	\$ 6.65
Expenses	30
Incubators	5.00
Prisoners	42.00
Kiln logs	27.00
Material	65.00
	137.80
	144.95
Balance on hand	518.11
	605.00

As there was a small account owing to the head office and as another engagement was on order the treasurer was requested to forward to head office the sum of \$500.00 to be applied on the purchasing account.

It was pointed out that the surplus of seed grain to the different auxiliaries which is anticipated will be formed in the near future would mean an extra effort to get the surplus from the local branch and it is hoped they will get the additional support necessary to carry on this additional obligation.

### Will Secure Seed For 1919 Crop

In view of the possibility of a shortage of seed grain next spring, Secretary H. Higginbottom, of the U. F. A., has been in correspondence with the board of grain commissioners of Canada and also the board of grain surplus. Replies have been received from the secretaries of both boards in which the promise to take the matter up with the Dominion government. The many farmers who are becoming anxious about the seed problem will be pleased to learn that the boards are dealing with the matter and promise to provide all the seed necessary for the 1919 crop.

## SLIGHTLY CONFUSING.

There appears to be some confusion among merchants and householders alike regarding the recent instructions issued from Ottawa in respect to the use of substitutes for wheat flour.

According to the order issued "substitute" is interpreted to mean pure and wholesome corn, oat, barley, rice, rye, buckwheat, tapioca, or potato flour; bran, shorts, oatmeal, rolled oats, corn grits, rye meal or any mixture of same, and potatoes. In using potatoes 4 pounds of same will be equivalent to one pound of other substitutes.

In reference to consumers the order says: "Every person in Canada who bakes for consumption bread, rolls, pastry, or any other product, in which white or standard flour is used shall in making the same use not less than one pound of substitute to every nine pounds of white or standard wheat flour."

Concerning licensed retail dealers west of Fort Arthur the order says: "No licensed dealer shall sell to any person for private consumption any white or standard flour who does not purchase from him substitutes in the proportion of not less than one pound of substitute to four pounds of white or standard flour."

Here is where the confusion comes in. The instructions to consumers say they must use one pound of substitute to every "nine" pounds of white flour when making certain articles mentioned above. The instructions to retailers say they must sell one pound of substitute for every "four" pounds of white flour.

The object of these instructions is quite plain and retailers are taking big chances if they sell more than four pounds of white flour for every one pound of substitute. The proportion of one to nine refers simply to the baking of certain articles and concerns the consumer only. The other one to four—refers to what the dealer can sell and means that consumer must use one pound of other foods for every four pounds of flour.

## EXCESSIVE PROFIT.

According to the finding of the United States Federal Trade Commission, packing plants, flour mills, steel companies and almost every other branch of large manufacturing enterprises are making a larger profit on the goods they manufacture than did before the war. This is only natural and the average Canadian has long since been of the opinion that the same state of affairs exists here. There is not a commodity upon which our government has placed a war tax that producer, middlemen and retailer are not making a bigger profit on now than in pre-war times. The trouble is that when the government puts a few cents war tax on a thousand or ten of a certain commodity the dealers through whose hands that commodity passes add a five cents or even hundred or even pound as the case may be. And they always label it war tax.

The Calgary Herald looks upon the finding of the United

States Trade Commission as an argument against price fixing by the government, and it figures that the Canadian system of setting a tax on all excess war profits is better, and the best way of reaching the big profit fellow. We cannot agree with the Herald in this diagnosis of the case, as that is not getting after the big fellow at all. It is simply skanking the little fellow in a roundabout way. The worst of it is the big fellow gets the credit for paying a large war tax when as a matter of fact he is simply stealing it from the general public.

If the idea is for the government to get money quickly and in a lump sum then the Herald's idea might be all right. But if we are to have a government of the people and for the people then it is all wrong.

In order to save wheat the Food Board requires bakers to use cereal that is more expensive than wheat. Don't blame the baker when you get your bread bill.

The nice rain we are having this afternoon will certainly spoil the small potatoes. Too bad, isn't it? No small potatoes for the hens and pigs this fall and winter.

Judging from reports coming from the front these last few days the Allies have very taking ways. Taking towns seems to be their principal pastime.

Canada has made over a billion dollars worth of munitions for the allies. Just think of it. The country that old Kaiser Bill was going to take in part payment for his share in the spoils of war to send him such a bouquet as that. We hope he will soon be wearing one of the sprigs from the bouquet in his button hole.

Lately reports say the Huns are getting into Austria. This is a short time ago Austria would not play unless Germany sent some help. In the meantime Turkey is beginning to wonder where she is to get off at. Like the dog that swallowed his tail the Kaiser must by this time have formed a nice circle trying to make ends meet.

The Food Board reports that it has warned the retailers not to charge exorbitant prices for wheat substitutes. Why not? The retailers are not charging exorbitant prices to the retailers. We venture to say that the reason of high prices is not caused by the retailers but is due to the high prices charged by the manufacturers and wholesalers. It is easy enough to slap the little fellow, but why not tackle the big ones.

News that the Bolshevik government of Russia has broken up and that its leaders, Lenin and Trotsky, have fled to Kronstadt on their way to Germany, will not cause surprise. It merely goes to justify the suspicion long held that these two men, taking advantage of a favorable opportunity, seized power in Russia for the express purpose of furthering the aims of Germany—Calgary Herald.

## CANADIANS TAKE THREE . . . IMPORTANT TOWNS.

A London report of last Saturday's fighting says: "Canadian and Australian forces captured Broodt, Marbais and Libens, and have entered Valenciennes and Propret."

The French forces captured Le Tronquoy, Le Prievre, and Anasville.

## Belgium Has Town Laid in England

In one of the most beautiful English valleys, far from devastated Belgium, there is a little village where, once more, Belgium homes are established in the peaceful days before the war. Belgian housewives delight to keep their fires burning in a most attractive way, help women return as of old at the close of the day to their own fire and Belgian children, unfrightened, gather about the family board and read and chat and sing. The scene of this little haven is Elizabethtown, in memory of the high-spirited, well-known—1906 when the fleet of Elizabethtown is to be found in somewhat of a peaceful. Some might think it located in the great munition factory. Others would contend that the soul of Elizabethtown is in its home. To be sure the factory is the thing which gave the village its name for being. More than one and a half million shells have been made for England in this town and no one but Belgians are employed there. They are not doing any service—military part of them and at least three-fourths have been decorated. Four hundred have been decorated for bravery. At the end of 1916 the weekly wage in pounds, more than doubled the production of shells. Today, although the wage has been increased, the two things balance. The workmen are under the control of the Belgian General manager but the building of the village was under the supervision of the Minister of Munitions.

Elizabethtown is a garden city—31 acres lighted on one side by a big cottage and such has a little garden spot attached. Each is furnished by the Ministry and the weekly rent pays everything. There is one corner store and one butcher shop, one church a school for girls and another for boys. There is a hospital attended by military surgeons. Boy scouts have a flourishing company and the fathers can enjoy the games of their own country. A most interesting feature is that Elizabethtown has three communal dining rooms which have proven highly successful. Food is good and the price is low.

Elizabethtown is a garden city—31 acres lighted on one side by a big cottage and such has a little garden spot attached. Each is furnished by the Ministry and the weekly rent pays everything. A most interesting feature is that Elizabethtown has three communal dining rooms which have proven highly successful. Food is good and the price is low.

## Minnesota Women Believe in Union

The women of Minnesota are out to win the war and believe in the motto: "The union is strength." That and that they have issued the following appeal to all the women of their state:

"We are one people with one job—we win the war as soon as possible. This is going to take every ounce of effort from all of us. Yet every one of us again and again we meet little groups who are not doing their share and who are not doing their share. We are going to see that they are. The Red Cross, the Council of National Defense, the War Administration are all called to service by the government to serve in this world crisis, and they can only make such service 100 per cent effective if they stand shoulder to shoulder, doing team work."

"It is the function of the Red Cross to serve the soldier and the sailor at the front and to care for their families here at home. It is the function of the Council of Defense to try to Americanize the allies, to stimulate food production and conservation, to aid in Liberty Loans, to carry on campaigns in child welfare, in protection of women in the war industries, etc. It is the function of the War Administration to make the food go around. But these are only different phases of the same big job, and to work for one does not relieve us of the obligation of working for the others. We who represent the Red Cross, the Council of Defense, and the War Administration, are sending this joint appeal to our workers all over Minnesota to stand by each other, serving these threefold forms of government war service with perfect unanimity."

The continued attitude to decide the German people regarding the progress of the war and American participation are meeting with progress in a part of the German press, according to an official dispatch from Switzerland.

The Muenster Post protests against a recent speech delivered at Hamburg by Prince Henry of Prussia giving the German people a picture of the situation which is no way corresponds to the reality. "Germans are not going to let themselves be exploited like children. It is inhuman to tell them that people are saying that we shall support a fifth-year of war like the four preceding ones. It would be doing wrong to the German people."

## German People are Now Getting Wise

The continued attitude to decide the German people regarding the progress of the war and American participation are meeting with progress in a part of the German press, according to an official dispatch from Switzerland.

## What Allies Have Done in Three Weeks

After the battle of the Aro, the situation of the Belgians presents a change, which rapidly and to a great extent has rarely been approached in military history. Marshal Foch's army, the British and the Americans, the generals commanding the armies and groups of armies under the Germans what required, four months for them to obtain at a cost variously estimated at from 700,000 to 1,000,000 men. The immediate results of the offensive which will have the greatest bearing on subsequent operations are:

The clearing of the Chateau-Thierry pocket, ending the menace to Epernay and Paris.

The liberation of Montdidier, ending the menace of Amiens.

The freeing of the important eastern railroad line from Paris to Amiens.

Restoring to the allies means of communication which give them a more greatly greater ease in the future movement of troops.

The collapse of the German plan. These successes render impossible any rupture of the line which would separate the French armies of the center from those to the east, or any rupture of the junction between the French and the British. The most disastrous consequence to the Germans, aside from the heavy losses in men and material, is the collapse of their plan to drive wedges into the allied lines and the subsequent widening and joining which would have threatened general destruction.

Marshal Foch's strategy in reducing the salient wedges created the initiative in operations from the Germans, at once compelling them to order a retreat to a strong line such as the Somme, or to engage reserves. The latter adopted the second alternative, which, having failed, makes eventual retirement immensely more difficult.

## RESULTS OF CONSERVATION.

Conservation measures and voluntary saving in the home have increased Canadian consumption of flour from 800,000 to 600,000 barrels per month as compared with pre-war consumption. Conservation efforts in Canada are releasing most enough to provide the nation for at least 500,000 soldiers.

Canada is now saving sugar at the rate of more than 100,000 tons per annum as compared with a year ago. Nearly 800 cars of foodstuffs have been saved from total or partial loss from spoiling through regulations of the Canada Food Board.

Net exports of beef from Canada have been increased by more than 70,000 pounds per year, or 6,700 per cent increase over the average net exports for 1914.

Before the war Canada imported butter at the rate of 7,000,000 pounds annually. This country is now exporting at the net rate of over 4,000,000 pounds per annum.

Canada exported from 25 to 30 per cent more wheat, during the last twelve months than could have been exported had it not been for conservation and organization of our food resources.

By standardization of flour and increasing the percentage of flour extraction from wheat, Canada is saving 30,000 barrels of flour per month.

A dispatch received from Stockholm says that as a result of the efforts of Sweden's representative in Moscow, the British and French consuls, who were recently arrested by order of the Bolsheviks, have been released.

## INTERESTING MESSAGE COMES FROM VIENNA.

Among the messages dropped into Vienna by Gabriel d'Annunzio, the action in his recent flight with 35 Italian air squadrons over the Austrian capital was one in which, the American effort was emphasized.

"The whole world," said the message, "is against you, while your government, after its defeat of last June, is hopeless of victory. Today more than 1,000,000 Americans are fighting in France and America is building today as many ships as the submarines are sinking."

## BRITISH OFFICER SHOT BY RED CROSS BOAT.

One British captain, wounded under the left shoulder, said a German boat bearing a Red Cross bannant, had shot him as he turned his back and went into a dugout. A British soldier nearby, seeing what happened, shot the German boat. "I kept his boat for a while because it was my gun," said the officer.

## CANADIAN PACIFIC Change in Train Service

EFFECTIVE AUG. 18 1918

There will be a General Change in Train Service

Times for trains at Redcliff will be

West Bound -- No. 1 Arrives 23:30

No. 3 Arrives at 11:50

East Bound -- No. 2 Arrives at 6:50

No. 4 Arrives at 20:40
